

JESLENE INIYA D

Innovation-Driven Developer | Building Technology for Impact | Creative Problem Solver

DOB 07-12-2007

Passionate First-year Computer Science and Engineering student at Ramaiah University of Applied Sciences with interests in AI, Data Science, and Healthcare Technology. Passionate about software development, innovation, and applying technology to solve real-world problems.

81488 17683

EDUCATION

- Bachelor of Technology (CSE) - MS Ramaiah University of Applied Sciences 2025–2029 (Expected)
- Senior Secondary (Class XII) –Mount Carmel PU college, Bangalore – 2025, 96%
- Secondary (Class X) – CSI Ewart Higher Secondary School, Tamil Nadu – 2023, 95.4%

LEADERSHIP & RESPONSIBILITIES

- Class Representative (CR)
- Core Member – Institution's Innovation Council (IIC RUAS)
- Event Head – ComputeX Club
- Student Representative – Library Committee

PROJECTS

1. Quotes App | Python, Streamlit

- Developed an interactive emotion-based quote recommendation application.
- Designed a personalized user experience with multiple emotional categories.
- Implemented user-friendly navigation and customized quote display.

2. Automatic Room Light Control System Using Arduino & LDR (Team Project)

- Developed and presented an automated lighting control system using Arduino and LDR sensors.
- Implemented logic-based decision making to control lighting based on ambient light intensity.
- Integrated sensor inputs, real-time processing, and output display components.
- Collaborated in system design, development, testing, and documentation.

TECHNICAL SKILLS

SKILLS

- Python
- C Programming
- Content Creation
- Video editing
- Presentation Design

TOOLS & TECHNOLOGIES

- Streamlit
- GitHub
- Visual Studio Code
- Canva

HOBBIES

- Exploring New Technologies
- Tech Design
- Reading and Writing
- Chess

LANGUAGES

- English
- French
- Tamil

3. Anonymi – Emotional Support Platform (Hackathon Project)

- Collaborated in developing a platform focused on emotional well-being and peer support.
- Participated in ideation, solution design, and team discussions during the hackathon.
- Gained exposure to GitHub workflows and collaborative software development practices.

4. MediOnco Nexus – AI-Powered Breast Cancer Risk Prediction & Care Coordination Platform (Team Project)

- Collaborated in the development of a healthcare platform for breast cancer risk prediction and patient care coordination.
- Contributed to project discussions, testing, and feature planning during development.
- Gained exposure to healthcare technology, AI-driven applications, and collaborative software development.
- Built upon an earlier Streamlit-based breast cancer prediction prototype.

COMPETITIONS & WORKSHOPS

• 2nd Place – Spot The Fake

Secured 2nd Place in "Spot The Fake" at State Level Technical Symposium – TechSpark 2026, New Horizon College.

• PhytoScope – Ramaiah Ideathon Anveshan 2025

Collaborated in proposing an AI-driven solution for early crop disease detection.

• Innosphere 2026

Presented an Arduino-based Automatic Room Light Control System after being selected among the top teams from the class.

• TechnoMaze – Pravrutti 2026

Participated in a technical & Mathematical problem-solving competition conducted as part of the university tech fest.

AREAS OF INTERESTS

- Artificial Intelligence & Machine Learning
- Data Science
- Healthcare Technology
- Software Development

FUTURE ASPIRATIONS

To build a meaningful career in software engineering, specializing in AI and smart systems. I aspire to design technology that provides practical, real-world solutions for key sectors like healthcare and agriculture, while growing into a strong technical leader

• Triathlon – Pravrutti 2026

Participated in a multi-stage technical competition testing analytical and problem-solving skills.

• Global Circuit Summit 2026

Served as a Student Member of the Organizing Team for the summit held at Ramaiah Medical College, Bengaluru.

• Startup Journey: Idea Innovation & Entrepreneurship

Coordinated in the organization of workshops, Startup Mela, and Ideathon activities conducted by RUAS.

• Silicon Venture AI: From Chip to CEO

Served as Student Coordinator for the event organized by the Department of Computer Science and Engineering and ComputeX Club.

• IIC Regional Meet

Coordinated event activities and supported the successful execution of the regional-level program.

• IEEE Technical Event

Assisted in event coordination, participant management, and smooth conduct of technical sessions.
